

THE LEADING PROVIDER OF ADVISORY SERVICES, STRATEGIES AND SOLUTIONS FOR GLOBAL LABELING AND PACKAGING

**enLabel
Global Services
delivers a
comprehensive
solution for
Uniform Supplier
Compliance,
global branding and
global labeling.**

**Risk mitigation,
speed to market
and significant
return on investment
are the keys to our
success.**

enLabel Global Services delivers a measurable return on investment utilizing a lean, collaborative methodology. Collaboration begins with a strategic partnership at the executive level. enLabel Global Services delivers scalable professional services, which have evolved from decades of field proven experience, the expertise of our professional team and adherence to industry's best practice metrics.

enLabel Global Services is the cutting edge business and technical answer to a market that demands efficiency, managed costs and zero-defects across packaging and labeling* operations. Our methodology processes and technologies are based on the zero defect principals of creating, implementing and maintaining global labeling solutions.

The business model of enLabel Global Services focuses on providing clients with professional services consulting and enterprise-level labeling/packaging software using web-based technologies as the hub and delivery mechanism. Benefits include cost savings, error reduction and compliance to customers, regulatory agencies and suppliers.

enLabel Global Services is your zero defect labeling* solutions partner.

* Labeling includes all documentation associated with a product, regardless of whether it does or does not accompany the product.

enLabel Global Services provides solutions that label, package and track products accurately, efficiently, and consistently across worldwide distribution networks in dynamic and competitive environments. Our solutions are the result of over twenty years of experience in packaging, labeling, bar coding and RF based tracking systems. We use industry best practices (LEAN, Six Sigma, cGxP), providing a significant ROI.

enLabel's solutions are validated by success with customers across many industries. Our clients include Genzyme, CR Bard, Roche, DSM, GE, Pfizer, Stryker, MTD, Lamson & Sessions, Zimmer, Nordson and Blackstone Medical.

**ENLABEL'S
SUPPLY CHAIN
LABEL COMPLIANCE
PORTAL SOLUTION**

Our supply chain label compliance portal is the only secure web based site offering companies the ability to post labels, documents, and other information for their suppliers to print. Suppliers only need a web browser and any printer to access and print labels.

**ENLABEL'S
ENTERPRISE - WIDE
GLOBAL LABELING
SOLUTION**

Our enterprise-wide global labeling solution provides collaborative design and comprehensive labeling work flow.

This includes approval, distribution, archiving, reporting, synchronization, production printing and packaging verification.

**ENLABEL'S
LEAN PROCESS
CONSULTING SOLUTION**

Our consulting services are a collaborative process with our clients. Deliverables include an analysis of the current state of their labeling systems and a roadmap through which they implement industry best practices to achieve compliance. Our patented TTP (Template To Product) analysis delivers undisputed indicators of significant saving potential and operational efficiencies through streamlining global labeling processes.
